PanSurg

PanSurg

# Why is this important?

- Voice to trainees
- Disruption to a lifetime of work
- Support those who have supported others
- Learn from our experiences
- Reduce the impact if there are future disruptions

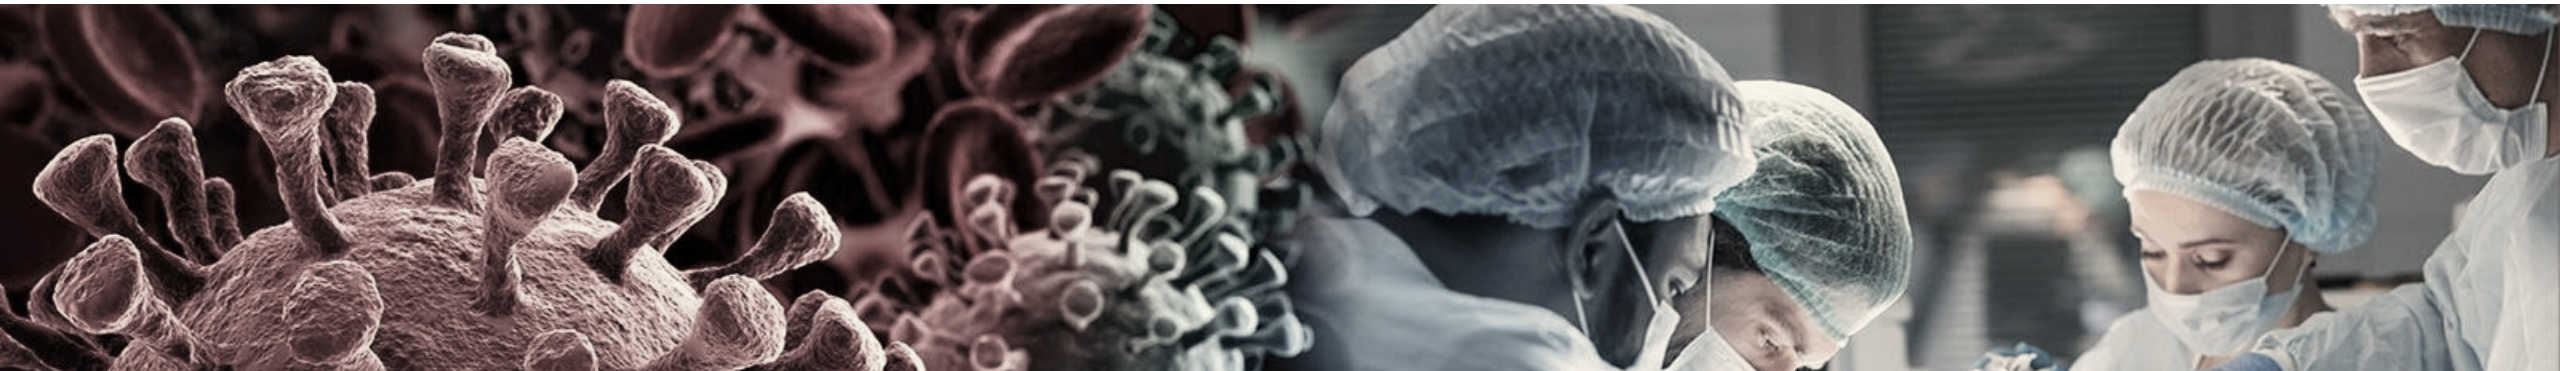
# PanSurg

A global hub for surgeons and related professionals to share experiences, policy, data and research for the delivery of safe, effective surgery during the COVID-19 pandemic.



# PanSurg PREDICT

## Key Aims of National UK Collaborative study:

Generate real-time risk prediction models

Inform surgical decision making.

Create accessible live datasets
